14th TechNet Conference
Closing Remarks & Parting Thoughts

Patrick Lydon (WHO)

TechNet-21
The Technical Network for Strengthening Immunization Services

Agenda Structure

Mon 11

Opening & Keynote Speeches

Focus :

1) Participant registration
2) Opening Ceremony and Welcome Reception

Tue 12

Designing the System

Focus Topics:

1) Network Design & System Optimization
2) Vaccine Management Best Practice

Wed 13

Equipping the System

Focus Topics:

1) Cold Chain Equipment & Maintenance Systems
2) Temperature Monitoring Systems

Thu 14

Managing the System

Focus Topics:

1) Human Resources for Logistics
2) Data for Managing Supply Chains

Fri 15

Enabling the System

Focus Topics:

1) Global Initiatives
2) New Initiatives

Immunization Supply Chains

Context

Current Challenges & Innovations

Future Prospects

Opening Ceremony

A Tribute

Key Note Presentations

Group Photo

Welcome Reception

Morning Agenda – Format

Tue 12

Ballroom 1+2

Designing the System

Two Daily Focus Topics:

- **Topic 1**: Network Design & System Optimization
- **Topic 2**: Vaccine Management Best Practise

08:30

1. Global Updates Topic 1 & 2
2. Country Presentations Topic 1

10:00

10:30

3. **COFFEE BREAK**
4. Country Presentations Topic 2
5. Moderated Q&A PM Teasers

12:00

PLENARY SESSIONS

08:30 - 09:00	**Global updates: Network design, system optimization and vaccine management best practice** • Ensuring the basics are fixed: Vaccine management best practice, Diana Chang-Blanc (WHO) • Network design and optimization, Ryan McWhorter (UNICEF)
09:00 - 10:00	**Country innovations: Designing for the future and rethinking more fundamental design elements** • **Mozambique** - Network optimization modelling to prepare for new vaccine introduction, Graca Matsinhe (Ministry of Health) • **Ethiopia** - Network optimization for transport to determine resource requirements and shorten distribution pipeline, Henok Benti (JSI) • **Benin** - Modelling and moving warehouse, Philippe Jaillard (AMP) • Moderated Q&A around designing the system, Jeff Sanderson (JSI)

COFFEE BREAK
10:00 - 10:30

PLENARY SESSIONS

10:30 - 12:00	**Country innovations: Fixing the basics by strengthening vaccine management policies and practices** • **Thailand** - Experience from streamlining the network design for vaccines by outsourcing to the private sector, Netnapis Suchonwanich (Ministry of Health) • **Myanmar** - Immunization supply chain challenges in a resource constraint country and during a mass MR campaign, Kyaw Kan Kaung (Ministry of Health) • **Uganda** - Lessons learned from supply chain integration and improving vaccine management using the EVM approach, William Musubire (Ministry of Health) • **Somalia** - Immunization supply chain challenges in a fragile state and lessons learned, Douglas Mukwaya (UNICEF Somalia) • Moderated Q&A around designing the system, Jeff Sanderson (JSI) • Afternoon session teasers, Ryan McWhorter (UNICEF)

LUNCH BREAK
12:00 - 14:00

Morning Plenary Sessions

Global Updates

Country Innovative Experiences

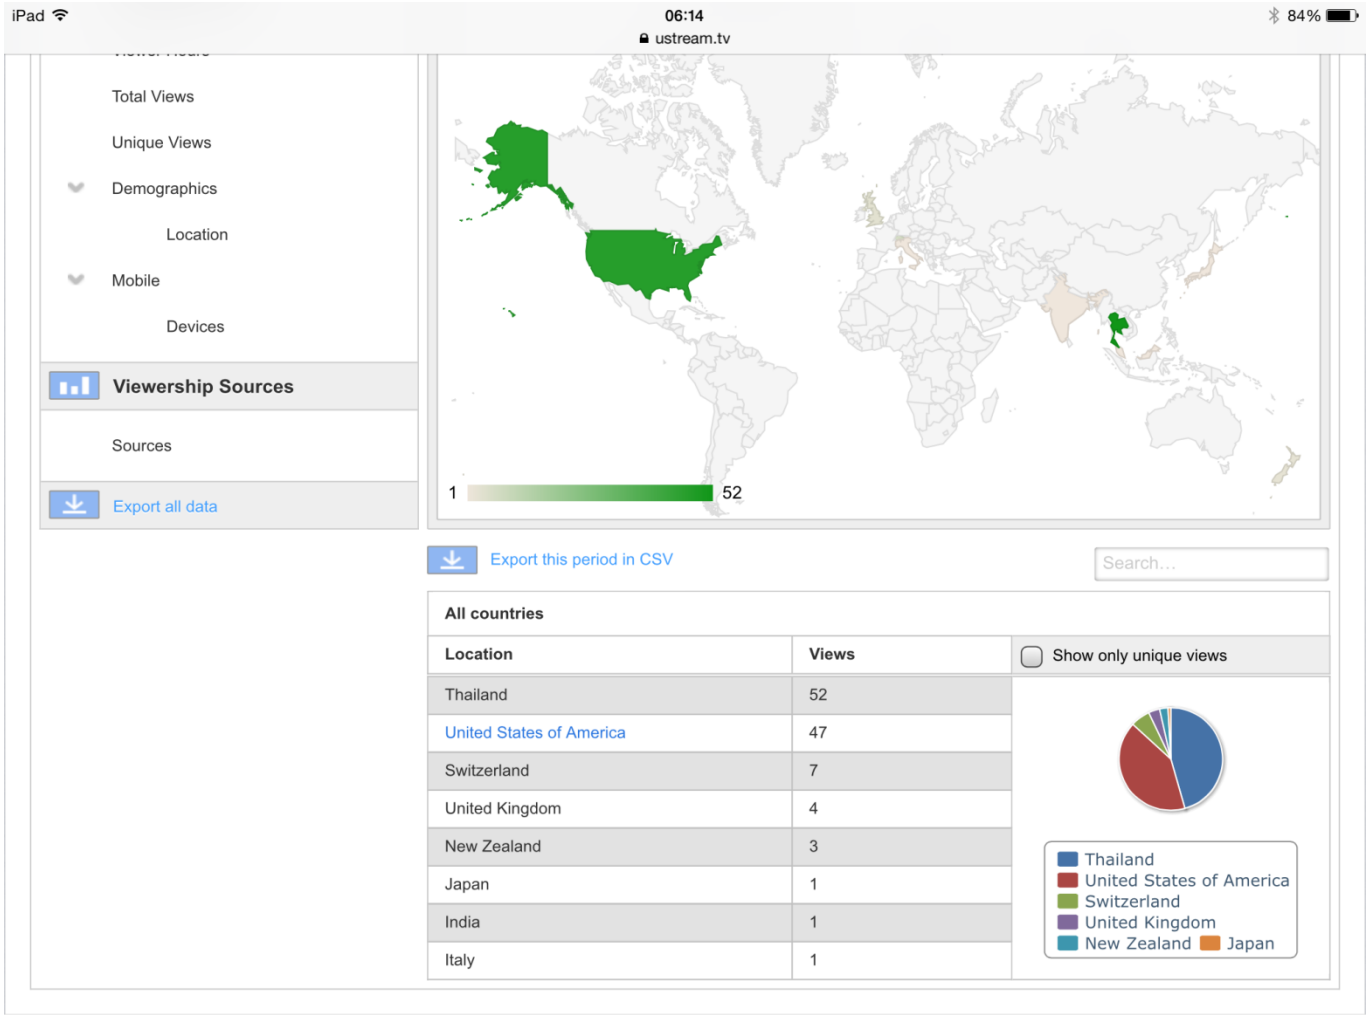
Live Streaming & Session Recordings

USTREAM

Total of 400+ views on Ustream

Maximum of 10 people streaming at one time

Many in their rooms?



Long Lunch Breaks

Lunchtime Sessions – Format

Tue 12

Designing the System

Two Daily Focus Topics:

- **Topic 1**: Network Design & System Optimization
- **Topic 2**: Vaccine Management Best Practise

12:00 13:00 14:00

1 LUNCH

Liu & Willow

2 Roundtable Discussion

ROUNDTABLE DISCUSSION

Immunization Supply Chain – driving coverage and equity improvements

New York room (level 2)

Moderator: Xiaojun Wang. Co-facilitator: Dmitri Davydov (UNICEF).

In recent years, many national immunization programmes have been increasingly engaged in improving immunization supply chain management and improving immunization coverage and equity. However it is also observed that often two programmatic areas are planned and managed separately, leading to missed opportunities or reduced programme efficiency.

This section aims to increase recognition on close linkages between those two areas, particularly in line

New York Room

3 SIDE EVENTS

- Manufacturers Marketplace
- Video Gallery x1
- Innovations Café x2
- TechNet-21 Clinic
- Project Gallery x5
- Resource Library

Afternoon Agenda – Format

Tue 12

Designing the System

Two Daily Focus Topics:

- **Topic 1**: Network Design & System Optimization
- **Topic 2**: Vaccine Management Best Practise

14:00	15:00	16:00	17:00
60mins	60mins	60mins	

	14:00	15:00	16:00
1 Expert Panel Discussion	**Supply Chain Integration - the good, the bad &the ugly** Ballroom 1+2	Time for visiting: Manufacturers Marketplace; Innovations Café; Project Gallery; Video Gallery; TechNet-21 Clinic; Resource Library; & Coffee Break in Ballroom Foyer	**Outsourcing Logistics - view from both sides** Ballroom 1+2
2 Focus-topic Breakout 1	**Network modelling - what tools and approaches exist?** New York Room		**Informed-Push Distribution - Is this the magic bullet to vaccine transportation?** New York Room
3 Focus-topic Breakout 2	**Setting up Network Redesign for Success - the U.S. CDC Example** Beverly Hills Room		**Effective Vaccine Management - Let's get comprehensive!** Beverly Hills Room

Expert Panel Discussions

Afternoon Interactive Sessions

Manufacturers Marketplace

Innovations Café

Project Gallery
