# Well-resourced GF procurement reported a 36% OTIF rate

*OTIF = on time in full*

# Rationale for ISG

## Global medicines market:

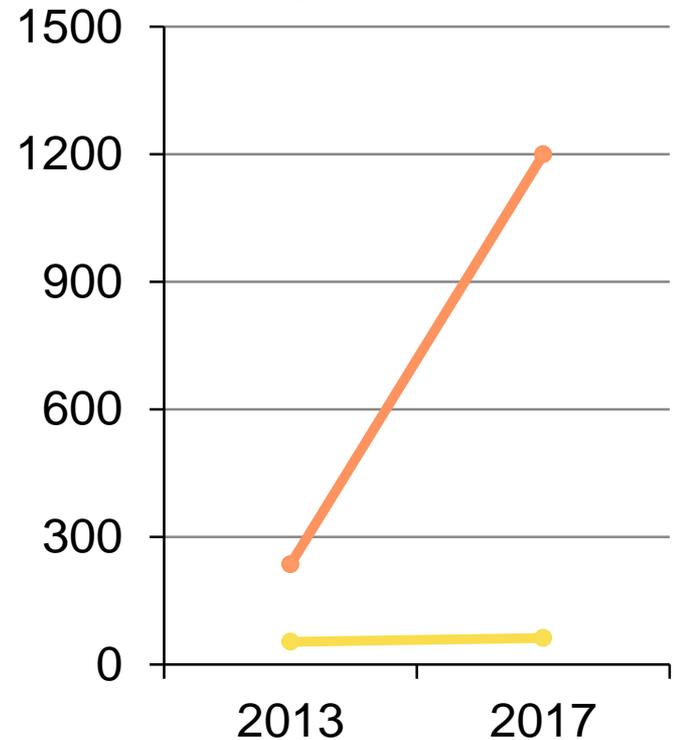

↑ *US\$235 billion, reaching up to \$1.2 trillion by 2017<sup>1</sup>*

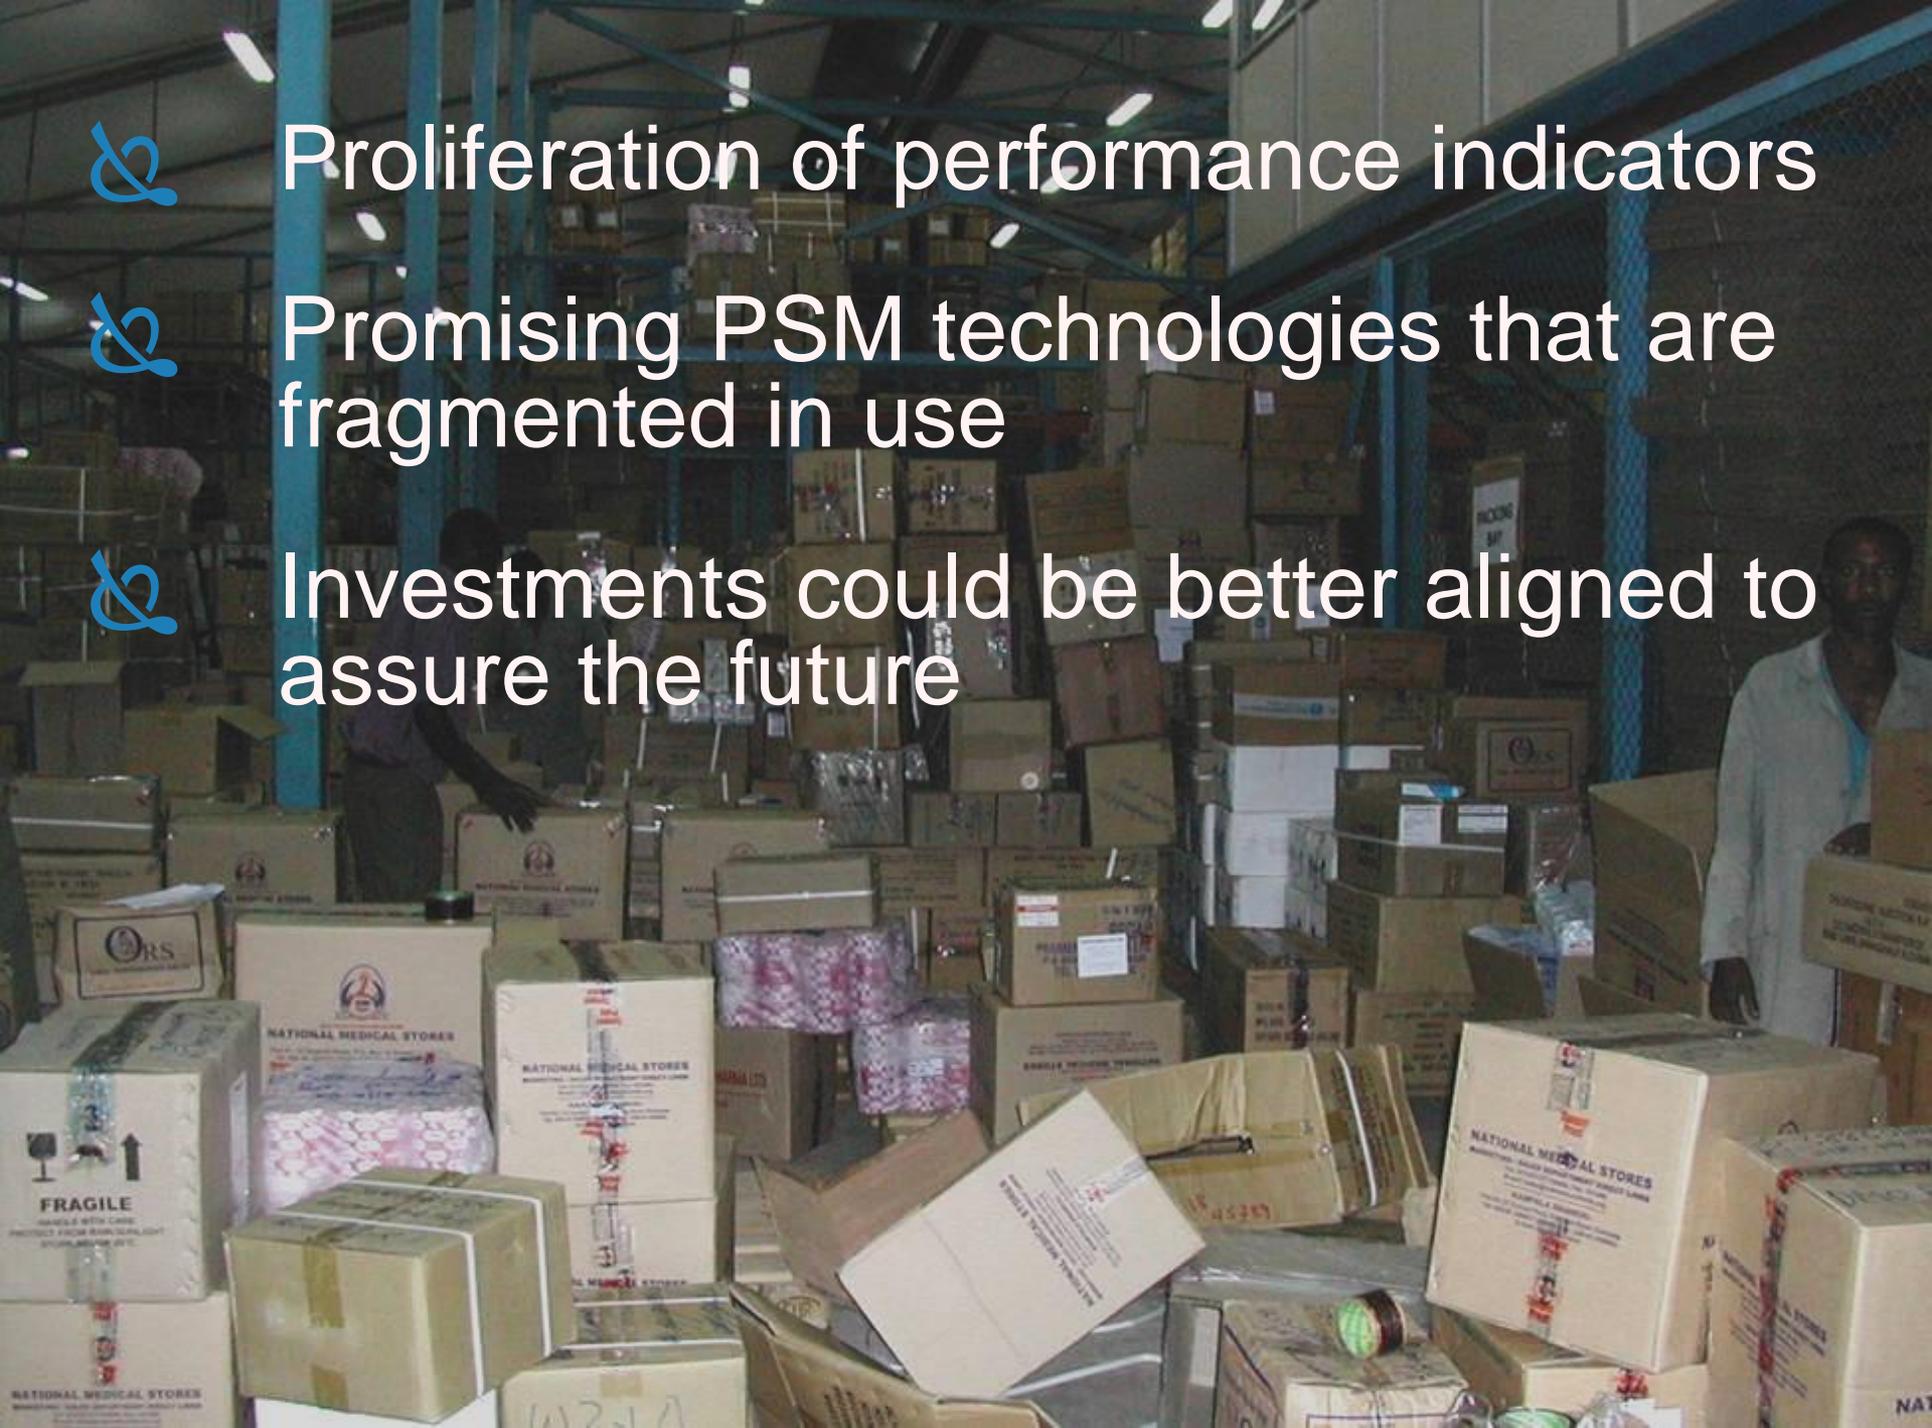

## Historic increase in funding for support<sup>2</sup>:

↑ *15% average 10 year increase (2000 – 2012)*

— Historic increase in funding

— Estimated growth of medicines market

❧ Proliferation of performance indicators

❧ Promising PSM technologies that are fragmented in use

❧ Investments could be better aligned to assure the future

# Informal inventory:

## Investment by technical area

Number of X per intervention	
Pooled procurement/demand consolidation	21
LMIS, implementation/ operations	19
LMIS, capacity development	20
Human resources development	19
Procurement, policy and governance	16
Procurement, capacity development	17
Supply chain, capacity development	20
Decentralization initiatives	12
CMS structures	8
Monitoring and evaluation	17
3PLs	10
Cold chain	8
Supply chain integration	22
Alternate transportation model (e.g. rolling warehouse)	15
Supply chain technologies (e.g., RFIDs, bar coding)	15
Last mile	19

# Informal inventory: Investment by program type

Average number of intervening agencies per intervention area, by health condition	
Reproductive Health	3.2
HIV	2.6
Malaria	2.5
TB	1.6
Maternal and Child Health	2.1
Immunization	2.8
NCDs	0.2

# Interagency Supply Group

## *Overall Vision*

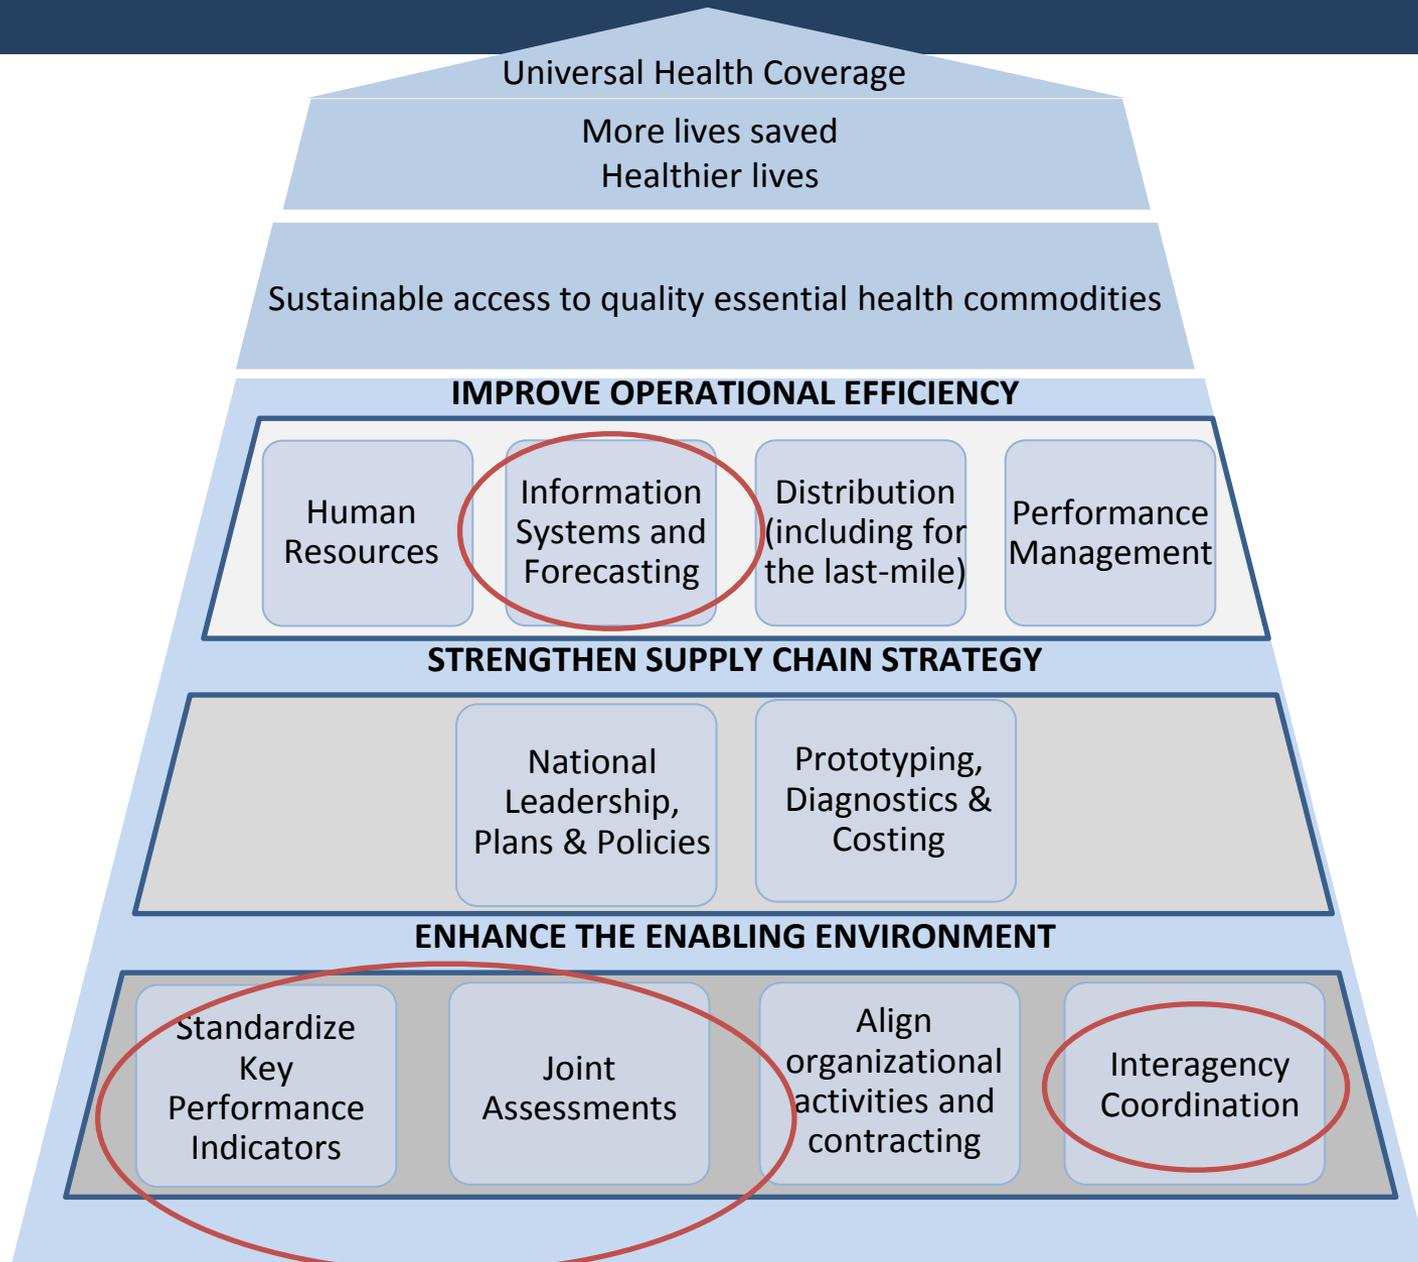

*The global development partners will collaborate in support of countries' efforts to have sustainable access to quality essential health commodities and supplies at the right time, in the right place and at lowest possible cost for those who need them, through cost-effective and efficient procurement and supply systems.*

Current participants: Global Fund, USAID, DFID, The World Bank, GAVI, UNICEF, UNFPA, WHO, The Bill and Melinda Gates Foundation, Norway, Canada, German Development Bank

# Objectives of ISG

- 🔗 Promote strategic alignment across investments to assure impact—collective and individual.
- 🔗 Support of in-country coordination of in-country supply chain investments, activities.
- 🔗 The ISG also develops collaborative projects across participating agencies.

# Inter-Agency Supply-Chain Group: current focus

# Current activities

## & Priority global activities identified by the ISG

- In depth analysis of systems options for the future
- Supporting country PSM strategic plans (UNFPA/UNICEF)
- Adoption of standards for HMIS / LMIS Interoperability
- Support coordination across groups implementing of standards for barcode technology (non vaccine commodities)
- **Harmonization of KPIs across agencies**
- Joint agency planning for Country Supply Chain Assessments
- Support coordination and planning in agreed target countries (Myanmar, Senegal, Mozambique, Nigeria, DRC, Uganda, Tanzania, Zambia)

# Conclusion

- ↳ Growth in demand for medicines may outpace existing investment approaches.
- ↳ Serious consideration of future PSM systems and models is urgent.
- ↳ Investments on the part of countries is considerable, but could be better quantified.
- ↳ Efforts to harmonize systems need to be both strategic, operational, and require incentives.

---

Acknowledgements to the ISG secretariat, hosted by the RMNCH Trust, as well as other ISG members for their contributions to this presentation.

**Thank You**
